## NEWSLETTER MARCH 2019

Dear Shareholders,

Firstly, we would like to thank everyone for their continued support as we endeavour to work behind the scenes in the development of our Sports Academy. This newsletter will provide an update to all our shareholders on matters since our AGM

1. **SHARE CERTIFICATES.** All share certificates have been distributed and all members should now be in receipt of their individual certificate, if not please inform the Directors who will investigate the reason.
2. **T-SHIRTS.** For those shareholders who will be receiving a Sports Academy t-shirt these have been ordered and we are awaiting delivery from the supplier. As soon as we are in receipt of the garments, we will be arranging locations and evenings for collection, information will be distributed accordingly.
3. **CONSTRUCTION WORKS.** Since the AGM the Directors have been working closely with various Council Depts, Engineers, Advisors and Organisations in order to get every detail correct, to ensure we progress in a timely manner. As you can imagine this process has to be done accurate and in conjunction with a few supportive external companies/individuals, we have been working tirelessly to ensure that every detail has been investigated and confirmed possible which will deliver a smooth completion of our project. To date we have regularly engaged with the following;
  - a. **Surveyors** have conducted soil samples to ensure the ground which is planned to be used is suitable for the construction works and future projects.
  - b. **Architects** regular consultations have been held as we define the key elements of our current phase in preparation for tender.
  - c. **Artificial Surface (AS)** consultation sessions have regularly taken place between the Directors, AS Installers and local organisations (including some organisation's on mainland GB) to ascertain the most suitable surface for the needs of the Academy, not just now but as we grow in sporting activities in the future, ensuring that the work we conduct now will be sustainable for future needs of the Sports Academy.
  - d. **Tender Document** is currently being written and is ever evolving as we confirm each specification required to meet our needs in order to deliver the initial phase of our community project.

### What next??

We are now in the final stages of confirmation of the technical requirements to meet our needs as a Sports Academy, once we are in a position we will release the tender document to potential companies which will place the wheels in motion for the start of Phase 1 and will take us a step further on our journey. We thank you again for your patience and support as we continue to work tirelessly to drive our project forward.
